It is also charged that the present system opens the way to the perpetration of all kinds of (raud-that, in fact, it invites it, and that every day the danger becomes greater; that instead of serving the purposes for which it was created it will form into a big political marbine, with abundant patronage to dispense, to the injury of the State and the detriment of the insane patients.

As maters stand now no institution can purchase as much as a penhoider without first obtaining the consent of the Langacy Commission. It is feared that even on question of food, the partients will ultimately suffer. Even now the use of tobacco is forbidden in every institution, although it is claimed that in some cases tobacco is needful.

It is also feared that the pext dictation from the Commission will come on the obestion of drugs, and where to purchase them.

Among the representatives of the Board of Managers of the different institutions present at last night's conference were George E. Dunham, of the Utica Hospital: ex-Senator Hammond, of Willard; Messes, Ranklo and Cummings, of Binshamton; Charles P. McClelland, of the Hudson River Hospital; Mr. McArdle, of Middletown; George Hall, George F. Darrow, W. L. Proctor, Dr. P. M. Wise and James S. Wells, of the St. Lawrence Hospital at Ogdensburg.

It is doubtful if many of them will attend the Lunacy Commission meeting on Thursday. The Commission meeting on Thursday. The Commission esting on Thursday. The Commission tonsists of Dr. Cerlos F. In view of recent events, in face of the public outcry for a better means of protection, it seems odd that Commission r Martin should be anxious to pursue such a course, in spite of all the efforts of the police under the present system, or rather the want of a system, crime must continue to increase; children will witness degrading spectacles of drunken men and women dragged or wheeled through the streets, all because officials fight among themselves.

An "Evening World" reporter has put Commissioner Martin squarely on record. No one knows better than the President of the Police Board the absolute need of a complete police signal system and patrol wagon service. He has admitted 'ts necessity, as well as the other Commissioners, and says he fought hard to have the system introduced.

"What can you not do?"

"We can do nothing," said the Commiscioner, "The Board of Estimate and Apportionment has already disposed of the question and will not reopen it again for us."

"No, decidelly not. The matter has gone over—that's all. There is nothing that we can do to revive it now."

"V. nen do you intend to revive it now."

"V. nen do you intend to revive it?"

asked the reporter. "When do you intend making any move looking to the adoution of that system?

"I do not know," replied the Commissioner. "Under ordinary circumstances we have only the Board of Estimate and Apportionment to look to for the money, and we cannot go before it again for another year. Of course, we have always the Legislature to go to. Which course we shall pursue I cannot state now."

"How about the patrol wagon service."

"Do you consider the \$12.500 in the provisional estimates sufficient for the purpose—to build stables in every precinct, purchase wagons and horses and horses and horses and provide for their maintenance?"

"Now, see here, replied Mr. Martin."
